Jotashield Penetrating Primer

Product description

Type
This product is an alkali resistant, solvent based primer. Based on acrylic copolymer resin.

Features and benefits
Excellent penetration into the substrate there by providing the best adhesion. Offers best protection against alkali attack.

Recommended use
Ideal for priming exterior surfaces.

Substrate
Cement plaster, concrete, block work, rendered surfaces, gypsum board etc.

Application data

The product can be applied by

Roller : Recommended.
Spray : Use airless spray or conventional spray.
Brush : Recommended to paint corners and edges.

Guiding data for airless spray

| Nozzle tip          | 0.38-0.53 mm (0.015-0.021") |
| Spray angle degrees | 65–80°                     |
| Pressure at nozzle  | 15 MPa (150 kg/cm²)        |

Cleaning of painting tools

Jotun Thinner No. 7
Film thickness per coat

Typical recommended range

<table>
<thead>
<tr>
<th></th>
<th>Typical recommended range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dry film thickness</td>
<td>30 - 40 µm</td>
</tr>
<tr>
<td>Wet film thickness</td>
<td>90 - 120 µm</td>
</tr>
</tbody>
</table>

Film thickness will vary and is calculated as average.

Theoretical spreading rate 11.3 - 8.5 m²/l

Spreading rate depends on film thickness applied, type of texture, surface porosity, imperfections, temperature, wastage during painting etc.

Maximum spread rate per coat is obtained at minimum dry film thickness and vice versa.

Thinner

Jotun Thinner No. 7

Dilution

Maximum 10 %

Conditions during application

The temperature of the substrate should be minimum 10 °C and at least 3 °C above the dew point of the air, measured in the vicinity of the substrate. Good ventilation is usually required in confined areas to ensure proper drying. The moisture content in the substrate should not exceed 4 % (by weight). The coating should not be exposed to oil, chemicals or mechanical stress until fully cured.

Drying times

Drying times are generally related to air circulation, temperature, film thickness and number of coats, and will be affected correspondingly.

1. Recommended data given is, for recoating with the same generic type of paint.

2. In case of multi-coat application, drying times will be influenced by the number and sequence and by the total thickness of previous coats applied.

3. The surface should be dry and free from any contamination prior to application of the subsequent coat.

The drying time is measured by stated values:

<table>
<thead>
<tr>
<th>Relative Humidity (RH) 50 %</th>
<th>Substrate temperature</th>
<th>10 °C</th>
<th>23 °C</th>
<th>40 °C</th>
</tr>
</thead>
<tbody>
<tr>
<td>Surface (touch) dry</td>
<td></td>
<td>6 h</td>
<td>3 h</td>
<td>1 h</td>
</tr>
<tr>
<td>Hard dry</td>
<td></td>
<td>10 h</td>
<td>5 h</td>
<td>3 h</td>
</tr>
<tr>
<td>Dry to over coat, minimum</td>
<td></td>
<td>8 h</td>
<td>4 h</td>
<td>2 h</td>
</tr>
</tbody>
</table>

Directions for use

Surface preparation

The substrate must be sound, clean, dry and free from dust, oil, grease, laitance etc. All traces of form release agents/curing agents must be removed. A light sanding with suitable abrasive material is recommended before application. Any resulting dust/loose particles must be removed.

Recommended paint system

Primer

Jotashield Penetrating Primer : 1 Coat
Topcoat
Recommended paint system

Remarks
Other systems may be specified, depending on area of use.
Contents of packaging with different batch numbers must be mixed together before use.
Please refer to the Decorative Sales Department for technical advice.
This product is available in: United Arab Emirates, Bahrain, Kuwait, Qatar, Saudi, Oman, India and Turkey

Storage
The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

Health and safety
Please observe the environmental and precautionary notices displayed on the container.
A Material Safety Data Sheet for the product has been issued.
Detailed information regarding health and safety risks and precautions for the use of this product is specified in the product's Safety Data Sheet.
First-aid measures, refer to section 4.
Handling and storage, refer to section 7.
Transport information, refer to section 14.
Regulatory information, refer to section 15.
